RESEARCH APPENDIX - Draft Transfer/Copy Request Form

- Atty's please complete this form and give to Mike Barman (or Lynn E. in his absence)

(Request Made By: MDK) (Date: 12 / 10 / 03)

   
☒  Please transfer the drafting file for

2001 LRB - 2075 to the drafting file

for 2003 LRB - 3181

 The final version of the 2001 draft and the final Request Sheet will be copied on yellow paper, and returned to the original 2001 drafting file. A new cover sheet will be created/included listing the new location of the drafting file's "guts".

 For research purposes, because the 2001 draft was incorporated into a 2003 draft, the complete drafting file will be transferred, as a separate appendix, to the new 2003 drafting file. This request form will be inserted into the "guts" of the 2003 draft. If introduced, the appendix will be scanned/added to the electronic drafting file folder.

— OR —

☐  Please copy the drafting file for
2003 LRB / and place it in the drafting file
for 2003 LRB

 For research purposes, because the original 2003 draft was incorporated into another 2003 draft, the original drafting file will be copied on yellow paper (darkened/auto centered/reduced to 90%) and added, as a separate appendix, to the new 2003 drafting file. This request form will be inserted into the "guts" of the new 2003 draft. If introduced the appendix will be scanned/added to the electronic drafting file folder.

 The original drafting file will then be returned, intact, to its folder and filed. For future reference, a copy of the transfer/copy request form will also be added to the "guts" of the original draft.

2001 BILL
D-NOTE

Stays
-3181/1
RM
NOT
RUN

Regen

- 1 AN ACT *to repeal* 196.493; and *to amend* 196.491 (3) (d) (intro.) of the statutes;
- 2 *relating to:* requirements for approval of construction of nuclear power plants.

Analysis by the Legislative Reference Bureau

* Under current law, the public service commission (PSC) may not approve the construction of a nuclear power plant unless the PSC makes two findings. First, the PSC must find that a facility inside or outside the United States is available for adequate disposal of all high-level nuclear waste from all nuclear power plants operating in this state, including the proposed plant. Second, the PSC must find that the proposed plant, in comparison with feasible alternatives, is economically advantageous to ratepayers. The second finding must be based on the following factors: 1) the existence of a reliable and adequate nuclear fuel supply; 2) the costs for constructing, operating, and decommissioning nuclear power plants and for disposing of nuclear waste; and 3) any other factor having an impact on the economics of nuclear power plants, as determined by the PSC.

This bill eliminates the requirement for the PSC to make the two findings described above. Therefore, under the bill, a proposed nuclear power plant is subject to the same approval requirements applicable to the construction of other power plants.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

BILL

SECTION 1

SECTION 1. 196.491 (3) (d) (intro.)^x of the statutes is amended to read:

196.491 **(3)** (d) (intro.) Except as provided under par. (e) ~~and s. 196.493~~[✓], the
commission shall approve an application for a certificate of public convenience and
necessity only if the commission determines all of the following:

SECTION 2. 196.493^x of the statutes is repealed.
